AI PROMPT KIT · 30 PROMPTS

AI Side Hustle Starter Kit

30 copy-and-paste AI prompts to pick a small digital product, make it, list it and post about it in 7 days, plus a free AI tools list and a 7-day checklist. The same process we use for our own printables and prompt packs.

INSIDE

- 1. Pick your idea (6 prompts)
- 2. Make the product (6 prompts)
- 3. List it (6 prompts)
- 4. Post about it (6 prompts)
- 5. Run it like an experiment (6 prompts)
- Free AI tools for each step
- 7-day launch checklist

Works with ChatGPT, Claude, Gemini and other AI chat assistants. For your own use; please do not resell or share the file.

How to use the prompts

1. **Paste the starter context first.** Copy the block below into a new chat with ChatGPT, Claude or Gemini, replace everything in [BRACKETS] with your real details, and send it.
2. **Pick a prompt, fill the brackets, send.** Highlighted **[BRACKETS]** are where your details go.
3. **Check everything.** AI can be wrong. Check facts, prices and claims before you publish. These prompts tell the AI not to invent facts, but you are the final check.

Starter context (paste once per chat)

You are my practical business coach. I'm starting a small digital product side project with AI tools.
Use only the facts I give you. If something is missing, ask me instead of guessing. Never promise income or results.
My skills and interests: [SKILLS AND INTERESTS, e.g. teaching, organizing, baking, fitness]
Time I have each week: [HOURS]
Budget: [AMOUNT, e.g. $0-$20]
Where I want to sell: [Etsy / Gumroad / not sure]
Who I'd like to help: [PEOPLE, e.g. busy parents, new teachers, small shop owners]

Your 7-day launch checklist

☐	**Day 1**	Pick your idea: run prompts 1-2, choose one product and who it's for.
☐	**Day 2**	Check demand yourself (prompts 3-4): write down what you see, decide go or next idea.
☐	**Day 3**	Outline and write the content (prompts 7-8).
☐	**Day 4**	Build the pages in Canva or Docs and export a PDF (prompt 9). Run the quality check (prompt 11).
☐	**Day 5**	Make 5 listing images from real pages (prompt 17). Write the title, description and tags (prompts 13-15).
☐	**Day 6**	Publish the listing on Etsy or Gumroad. Write your first video script and captions (prompts 19-20).
☐	**Day 7**	Post the first video and 5 pins. Set your 14-day target (prompt 25).

Free AI tools for each step

Every tool here has a free way to start. Plans, limits and fees change, so check each site before you rely on it.

PLAN AND WRITE	
ChatGPT (chatgpt.com)	Idea lists, plans, product text, listing copy. Free plan available.
Claude (claude.ai)	Longer documents and careful editing. Free plan available.
Gemini (gemini.google.com)	A second opinion on ideas and research questions. Free with a Google account.
MAKE THE PRODUCT	
Canva (canva.com)	Printable pages, covers and listing images. Free plan available.
Google Docs / Slides	Simple PDFs: write in Docs, export as PDF. Free.
SELL IT	
Gumroad (gumroad.com)	Sell digital downloads with no monthly fee; Gumroad takes a fee per sale. Check the current fee on their pricing page.
Etsy (etsy.com)	Marketplace with buyers already searching. Charges a small listing fee plus fees per sale; check Etsy's current fees.
GET SEEN	
CapCut (capcut.com)	Edit short vertical videos on your phone. Free plan available.
Pinterest (business account)	Pins keep sending visitors for months. Free.
YouTube Shorts / TikTok / Instagram Reels	Free short-video reach. Label AI-made videos with each app's AI label.

1. Pick your idea

01 **Ideas from what you already know**

Using my skills and interests, list 15 small digital products I could make in a weekend (printables, checklists, templates, planners, prompt packs, guides). For each: who it's for, the problem it solves, and why my background helps. No income estimates.

02 **Score the ideas**

Score these ideas from 1-5 on: how easy to make in 2 days, how clear the buyer is, how easy to show in a photo or short video, and how much I'd enjoy making it: `[PASTE IDEAS]`. Show a table, then pick the top 3 and explain why in one line each.

03 **Check demand yourself (no guessing)**

I'll check demand myself. For my idea `[IDEA]`, give me: 10 search phrases to type into Etsy, Gumroad Discover, Pinterest and YouTube; what to write down for each result (number of listings, review counts, prices I see, how recent); and how to read it. Do not tell me what the results will be.

04 **Read my demand notes**

Here is what I found when I searched: **[PASTE NOTES: listings, review counts, prices, video views]**. Using only these notes, tell me whether people seem to be buying or watching this, what the popular versions have in common, and one gap I could fill. Say clearly if the evidence is weak.

05 **Find my angle**

Popular products for **[IDEA]** look like this: **[DESCRIBE TOP 3]**. Suggest 5 ways to make mine different for **[WHO I HELP]** (niche, format, style, bundle, simpler). Pick the one that is quickest to make.

06 **My 20-day plan**

Make a 20-day plan to launch **[PRODUCT]** with **[HOURS]** hours a week and **[BUDGET]**. Days 1-7: make it. Days 8-10: list it. Days 11-20: post about it and review numbers. One small task per day, each under **[MINUTES]** minutes.

2. Make the product

07 **Outline the product**

Outline **[PRODUCT]** for **[WHO I HELP]**: page list (or section list), what goes on each page, and the one page that makes it worth buying. Keep it small enough to finish in 2 days.

08 **Write the content**

Write the content for page/section "**[PAGE NAME]**" of **[PRODUCT]**. Audience: **[WHO]**. Tone: **[TONE]**. Use plain words and short lines that fit on a printable page. Mark anything I need to check with **[CHECK]**.

09 **Printable layout brief**

Describe a clean layout for a printable page called "**[PAGE NAME]**" that I can build in Canva or Google Docs: page size **[US Letter / A4]**, sections, headings, how many writing lines, fonts that look good together, and 2 color options.

10 **Prompt pack builder**

I want to sell a prompt pack for **[WHO]**. List 25 tasks they do every week that AI can help with. Then write 5 example prompts with **[BRACKETS]** for their details, each telling the AI not to invent facts.

11 **Quality check**

Act as a picky buyer. Review this product content: **[PASTE]**. List anything confusing, missing, repeated or too long, and anything that sounds like a promise I can't keep. Then give me a fixed version of the 3 weakest parts.

12 **Instructions page**

Write a short 'How to use this' page for [PRODUCT]: how to print or open it, how to fill it in, and 3 tips. Under 150 words, friendly.

3. List it

13 **Title options**

Write 10 listing titles for [PRODUCT] for [Etsy / Gumroad]. Put the words buyers would search first. Etsy titles under 140 characters. No 'best', no claims I can't prove.

14 **Description**

Write a listing description for [PRODUCT]: who it's for, the problem it solves, exactly what's included ([FILES, PAGES, SIZES]), how they get it (instant download), and what it is not. Short paragraphs and bullet points. No income or results promises.

15 **Etsy tags**

Give me 13 Etsy tags for [PRODUCT], each under 20 characters, mixing what it is, who it's for and when it's used. No repeated words from the title where a better phrase exists.

16 **Pricing from my own research**

Here are prices I saw for similar products: [PASTE PRICES]. Suggest a launch price for mine and explain in 3 lines. Use only these prices; if I gave too few, tell me to check more.

17 **Listing photos shot list**

Plan 5 listing images for [PRODUCT] using real pages from my file: cover, inside pages, what's included, size/format, and one 'in use' mockup. For each, say what text to put on it in under 8 words.

18 **Buyer FAQ**

Write 6 short FAQ answers for my listing: file type, printing, sizes, refunds for digital items ([MY POLICY]), editing, and using it on a tablet. Use only my facts: [FACTS].

4. Post about it

19 **Story-style short video script**

Write a 15-second vertical video script in 3 beats: (1) a person struggling with [PROBLEM] says one line, (2) a friend shows them [PRODUCT] in one line, (3) the 'after' shot with one calm line. Natural speech, no income claims. Include on-screen text for each beat.

20 **Captions**

Write 3 short captions for a video about **[PRODUCT]** for TikTok, Instagram Reels and YouTube Shorts. Each with a hook line, one sentence about what it is, 'link in bio', and 4 hashtags. If the video uses AI, add 'Made with AI'.

21 **Pinterest pins**

Write 5 Pinterest pin titles (under 100 characters) and descriptions (under 300 characters) for **[PRODUCT]** that answer what people search, like '**[SEARCH PHRASE]**'. Plain, helpful, no clickbait.

22 **7-day posting plan**

Make a 7-day posting plan for **[PRODUCT]** across **[PLATFORMS]** with **[MINUTES]** minutes a day: what to post each day, the hook, and which product page to show.

23 **Turn one video into five**

I made this video: **[DESCRIBE]**. Give me 5 ways to reuse it (different hook, different first frame, a pin, a carousel, a 'how I made it' post) with the exact text for each.

24 **Reply to comments**

Write friendly replies to these comments on my post: **[PASTE COMMENTS]**. Answer questions honestly, point to the link only when they ask, and never promise results.

5. Run it like an experiment

25 **Set a target**

Help me set a simple 14-day target for **[PRODUCT]** (for example 'first 3 sales' or '100 listing views'), what I'll count each day, and where I'll find each number in **[Etsy Stats / Gumroad Analytics / app insights]**.

26 **Day 7 check**

Here are my numbers after 7 days: **[VIEWS, CLICKS, FAVORITES, SALES PER PLATFORM]**. Using only these, tell me where people drop off and the one change to try this week.

27 **Day 14 decision**

Here are my 14-day numbers: **[NUMBERS]**. Should I keep going, change the listing, change the product, or stop and try the next idea? Give your reasoning in 5 lines and say what extra data would change your answer.

28 **Next product from the same buyers**

My buyers for **[PRODUCT]** are **[WHO]**. Suggest 5 follow-up products or bundles for the same people, smallest first.

29 **Weekly review**

Ask me 6 quick questions to review my week (what I made, posted, learned, what flopped, numbers, energy). Then write a 3-line plan for next week.

30 **Keep it honest**

Read my listing and captions: **[PASTE]**. Flag anything that could read as an income promise, a fake result, missing AI disclosure, or a claim I can't back up, and rewrite those lines.

This kit teaches a process. It does not promise income or results; what happens depends on your product, your work and your market. Written with the help of AI tools and reviewed by a person.
