Free AI Tools List + 3 Starter Prompts

The free AI tools we use at each step of making and selling a small digital product, and 3 prompts to pick your first idea and plan it.

INSIDE

- Free AI tools for each step: plan, make, sell, get seen
- Prompt: Ideas from what you already know
- Prompt: Score the ideas
- Prompt: My 20-day plan

Free to use for your own projects. Please share the link, not the file.

Free AI tools for each step

Every tool here has a free way to start. Plans, limits and fees change, so check each site before you rely on it.

PLAN AND WRITE	
ChatGPT (chatgpt.com)	Idea lists, plans, product text, listing copy. Free plan available.
Claude (claude.ai)	Longer documents and careful editing. Free plan available.
Gemini (gemini.google.com)	A second opinion on ideas and research questions. Free with a Google account.
MAKE THE PRODUCT	
Canva (canva.com)	Printable pages, covers and listing images. Free plan available.
Google Docs / Slides	Simple PDFs: write in Docs, export as PDF. Free.
SELL IT	
Gumroad (gumroad.com)	Sell digital downloads with no monthly fee; Gumroad takes a fee per sale. Check the current fee on their pricing page.
Etsy (etsy.com)	Marketplace with buyers already searching. Charges a small listing fee plus fees per sale; check Etsy's current fees.
GET SEEN	
CapCut (capcut.com)	Edit short vertical videos on your phone. Free plan available.
Pinterest (business account)	Pins keep sending visitors for months. Free.
YouTube Shorts / TikTok / Instagram Reels	Free short-video reach. Label AI-made videos with each app's AI label.

How to use the prompts

1. **Paste the starter context first.** Copy the block below into a new chat with ChatGPT, Claude or Gemini, replace everything in [BRACKETS] with your real details, and send it.
2. **Pick a prompt, fill the brackets, send.** Highlighted `[BRACKETS]` are where your details go.
3. **Check everything.** AI can be wrong. Check facts, prices and claims before you publish. These prompts tell the AI not to invent facts, but you are the final check.

Starter context (paste once per chat)

You are my practical business coach. I'm starting a small digital product side project with AI tools.
Use only the facts I give you. If something is missing, ask me instead of guessing. Never promise income or results.
My skills and interests: [SKILLS AND INTERESTS, e.g. teaching, organizing, baking, fitness]
Time I have each week: [HOURS]
Budget: [AMOUNT, e.g. $0-$20]
Where I want to sell: [Etsy / Gumroad / not sure]
Who I'd like to help: [PEOPLE, e.g. busy parents, new teachers, small shop owners]

3 starter prompts

01 **Ideas from what you already know**

Using my skills and interests, list 15 small digital products I could make in a weekend (printables, checklists, templates, planners, prompt packs, guides). For each: who it's for, the problem it solves, and why my background helps. No income estimates.

02 **Score the ideas**

Score these ideas from 1-5 on: how easy to make in 2 days, how clear the buyer is, how easy to show in a photo or short video, and how much I'd enjoy making it: **[PASTE IDEAS]**. Show a table, then pick the top 3 and explain why in one line each.

03 **My 20-day plan**

Make a 20-day plan to launch **[PRODUCT]** with **[HOURS]** hours a week and **[BUDGET]**. Days 1-7: make it. Days 8-10: list it. Days 11-20: post about it and review numbers. One small task per day, each under **[MINUTES]** minutes.

Want the full process? The AI Side Hustle Starter Kit has 30 prompts for making, listing and posting your product, plus a 7-day checklist. Find it at launchpadprompts.gumroad.com.

This kit teaches a process. It does not promise income or results; what happens depends on your product, your work and your market. Written with the help of AI tools and reviewed by a person.
