How to use this pack

1. **Paste the starter context first.** Copy the block below into a new chat, replace everything in [BRACKETS] with your real details, and send it. The AI will then write in your voice for the rest of the chat.
2. **Pick a prompt, fill the brackets, send.** Highlighted **[BRACKETS]** are where your details go. The more specific you are, the better the result.
3. **Edit before you publish.** AI can be wrong. Check every fact, price, date and claim. These prompts tell the AI not to invent facts, but you are the final check.
4. **Ask for changes.** "Shorter", "warmer", "more like this example: ..." all work well as follow-ups.
